

# To Whom it May Concern

Thank you for making the piano lessons happen. You paid for all of it and I just wanted to give a thank you. I've always wanted to learn piano. I can sing. But I've always wanted to hear what it would sound like to hear both at the same time. So thank you and maybe one day I can accomplish that. And I'm learning all the notes and all the songs I could play.

To, whom it my concern,

Thank you for giving us money for piano lessons. We really like playing the piano.

I look forward to keep playing the piano. I play the piano because I want to learn how to play all the instruments.

To whom it may concern, I would like to say thank you for funding the music here at the boys and girls club. I have learned many things from Mrs. Allard like read music notes, which finger to use for each key and what kind of different notes there are. It has been a great experience and it also helps me in school with the piano class I am taking.

Have a great summer and I look forward to work with Mrs. Allard again next year and learn new songs.

To Whom it my concern,

I want to thank you for paying for piano lessons at the boys and girls club. I really appreciate you doing this to make it possible for piano. I just want to thank you so much. I don't know how else I can thank you. The music that I'm learning is Porcupines, Chief Thunder, The Wind Sock, Oscar The Octopus, Deep Sea Diving, The Typewriter, Bone Sweet Bone and Speed Boat. Also I'm learning not to look at the keys only looking at the notes. Also to put both hands together. I try to do the right notes but sometimes I mess up.

Thank you for Sponsoring music at the "Boy and Girls Club." I really like taking piano classes very much. What got me interested in piano is the fact I want to know how to

play just in case I want to start a band or some thing like that. I've been learning very complex things that actually is very easy and that's good. With out piano classes I would have a piano laying in my house for no reason! That's how I got the thought of joining piano classes. These very interesting and very fun! That why I'd like to Thank You.
